

Innovation and Experience at Work

AbsoLube 5250

AbsoLube 5250 is a PFPE fluid cut with non-combustible fluorinated solvent. When this material is applied, the solvent evaporates and leaves behind a thin film of oil. This lubricant has excellent low temperature properties and is inert to oxygen and other aggressive chemicals. The PFPE fluid has extremely low surface tension and this gives AbsoLube 5250 the ability to work in applications where other lubricants fail due to lubricant starvation. The fully fluorinated chemistry is completely compatible with a vast majority of plastics and elastomers.

CHARACTERISTICS		TYPICAL VALUE *
Туре		PFPE
Color		Colorless
Temperature Service Range (°C)		-40 to 200
Flash Point (°C) (ASTM D-92)		None
Four Ball Wear (ASTM D2266 / DIN 51350-T5)	60min 1200rpm 40kg _f 75°C	0.7mm
