

Material Safety Data Sheet

Innovation and Experience at Work

CHRISTO-LUBE[®] MCG 129N

| 1. | . Substance, Preparation, and Company Description | | | | |
|----|---|---|--|--|--|
| | Material Uses | Lubricant, Grease, Industrial applications | | | |
| | | Engineered Custom Lubricants (ECL) | | | |
| | Manufacturer | 3851 Exchange Ave. | | | |
| | Manufacturer | Aurora, IL 60504 | | | |
| | | 630-449-5000 | | | |
| | Product Code | CHRISTO-LUBE MCG 129N | | | |
| | Validation Date | December 17, 2014 | | | |
| | In case of emergency contact | 1-630-449-5000 | | | |
| 2. | Hazards Identification | | | | |
| | Emergency Overview | | | | |
| | Physical State | Semi-solid, grease | | | |
| | Color | White | | | |
| | Odor | Nearly odorless | | | |
| | Hazard Statements | NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED. | | | |
| | OSHA/HCS Status | While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of the product. | | | |
| | Routes of Entry | Dermal contact. Eye contact. Ingestion | | | |
| | | Potential acute health effects | | | |
| | Inhalation | No known significant effects or critical hazards. | | | |
| | Ingestion | No known significant effects or critical hazards. | | | |
| | Skin | No known significant effects or critical hazards. | | | |
| | Eyes | No known significant effects or critical hazards. | | | |
| | P | otential chronic health effects | | | |
| | Chronic effects | No known significant effects or critical hazards. | | | |
| | Carcinogenicity | No known significant effects or critical hazards. | | | |
| | Mutagenicity | No known significant effects or critical hazards. | | | |
| | Teratogenicity | No known significant effects or critical hazards. | | | |
| | Fertility effects | No known significant effects or critical hazards. | | | |
| | Developmental effects | No known significant effects or critical hazards. | | | |
| | | ver-exposure signs/symptoms | | | |
| | Inhalation | No specific data | | | |
| | Ingestion | No specific data | | | |

| | Skin | No specific data | | |
|-----------|--|---|--|--|
| | Eyes | No specific data | | |
| | Medical conditions aggravated by over- exposure | None known | | |
| 3. | Composition/Component Data | | | |
| | Name | CAS Number EINECS Number % | | |
| | | | | |
| | No Haz | zardous or Reportable Ingredients | | |
| 4. | First Aid Measures | | | |
| | Eye Contact | Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if symptoms occur. | | |
| | Skin Contact | In case of contact, immediately flush skin with plenty of water for a least 15 minutes while removing contaminated clothing and shoes Wash clothing before reuse. Get medical attention if symptoms occur. | | |
| | Inhalation | Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt, or waistband. Get medical attention if symptoms occur. | | |
| | Ingestion | Wash out mouth with water. Do not induce vomiting unless directed to do so my medical personnel. Never give anything by mouth to ar unconscious person. Get medical attention if symptoms occur. | | |
| | Protection for first-aiders | No action shall be taken involving any personal risk or withou suitable training. | | |
| | Note to Physician | No specific treatment. Treat symptomatically. Contact poisor treatment specialist immediately if large quantities have been ingested or inhaled. | | |
| 5. | Firefighting Measures | | | |
| <u>J.</u> | Suitable Extinguishing Media | Dry Chemical, CO ₂ , Foam. or Water Fog | | |
| | Special Exposure Hazards | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. | | |
| | Hazardous thermal decomposition products | Burning may produce gaseous hydrogen fluoride (HF). Fluorophosgene | | |
| | Special protective equipment for firefighters | Fire-fighters should wear protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. | | |
| 6. | Accidental Release Measures | | | |
| | Personal Precautions | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protection equipment (see Section 8). | | |
| | Environmental Precautions | Avoid dispersal of spilled material and runoff and contact with s waterways, drains, and sewers. Inform the relevant authorities if product has caused environmental pollution (sewers, waterwa soil, or air). | | |

| | Methods for Clean up | | material and plac Dispose of via a lic Large spill: Move sewers, water cou sweep up materi container. Dispose | ce in a designated, la ensed waste disposal co e containers from spill rses, basements, or cor al and place in a des e of via a licensed wa 1 for emergency contac | ea. Vacuum or sweep up abeled waste container. ontractor. area. Prevent entry into nfined areas. Vacuum or signated, labeled waste iste disposal contractor. t information and section | |
|--|-----------------------------------|---|--|--|---|--|
| 7. | Handling and Stor | 200 | | | | |
| | Handling | | Put on appropriate personal protection equipment (see section 8). Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored, and processed. Workers should wash hands and face before eating, drinking, and smoking. Remove contaminated clothing and protective equipment before entering eating areas. | | | |
| Store in accordance with local container protected from direct ventilated area, away from incom and food and drink. Keep container sthat ha resealed and kept upright to p | | d from direct sunlight i vay from incompatible m k. Keep container tightly itainers that have been o it upright to prevent le iters. Use appropriate | local regulations. Store in original ect sunlight in a dry, cool, and well- compatible materials (see section 10) intainer tightly closed and sealed until t have been opened must be carefully to prevent leakage. Do not store in appropriate containment to avoid | | | |
| 8. | Exposure Limits a | Exposure Limits and Personal Protective Equipment | | | | |
| _ | | | United States | | | |
| | Occupational Exposure Limits | | | Limits Exposure Li | mits | |
| | | Occ | Canada upational Exposure | Limits | | |
| | Ingredient | List Name | TWA (8 Hours) | STEL (15 mins) | Ceiling | |
| | Mexico | | | | | |
| | | Ingredient | upational Exposure | Exposure Li | mits | |
| | | | If this product cor | tains incredients with e | xposure limits, personal, | |
| | Recommended Monitoring Procedures | | workplace, atmosphere, or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. | | | |
| Engineering Measu | | 5 | should be suffici contaminants. If t limits, use proces | ent to control worker his product contains in s enclosures, local exh rols to keep worker | ood general ventilation exposure to airborne gredients with exposure aust ventilation or other exposure below any | |
| | Hygiene Measures | | Wash hands, forea products, before e end of the working to remove potenti clothing before re | arms and face thoroughl ating, smoking or using period. Appropriate teo ally contaminated clothi | y after handling chemical the lavatory and at the chniques should be used ng. Wash contaminated vash stations and safety on. | |

| | F | Personal Protection |
|-----|---------------------------------------|---|
| | Respiratory | Use properly fitted, air-purifying or air fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. |
| | Hands | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. |
| | Eyes | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposures to liquid splashes, mists, or dusts. |
| | Skin | Personal protection equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| | Environmental Exposure Controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements or environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| 9. | Physical and Chemical Properties | |
| 0. | Physical State | Semi-solid, grease |
| | Flash Point | Not Available |
| | Auto-ignition Temperature | Not Available |
