

CHRISTO-LUBE® 5130

Formerly called Absolube 5130

CHRISTO-LUBE® 5130 is PFPE fluid cut with non-combustible fluorinated solvent. When this material is applied, the solvent evaporates and leaves behind a thin film of oil. This lubricant has excellent low temperature properties and is inert to oxygen and other aggressive chemicals. The PFPE fluid has extremely low surface tension and this gives CHRISTO-LUBE® 5130 the ability to work in applications where other lubricants fail due to lubricant starvation. The fully fluorinated chemistry is completely compatible with a vast majority of plastics and elastomers.

CHARACTERISTICS	TYPICAL VALUE *
Temperature Service Range (°C)	-75 to 250
Type	PFPE
Color	Colorless
Flash Point (°C) (ASTM D-92)	None
Specific Gravity at 25°C	1.83

*The values stated in this Product Data Sheet are Typical Values and **must not** be used as QC Specifications for this product. Please contact the Global Technical Services department for QC specifications for this product.
